

Conditions for scoring the grade letters

A: At worst a C3 in one of the three papers and the rest must be distinctions i.e. 1,1,3

/1,2,3 /2,2,3 = A

For two papers, ALL MUST be distinctions i.e. 1,1

/1,2 /2,2 = A

B: At worst C4 in one of the three papers and higher grades in the rest i.e. 1,2,4 /2,2,4 /3,3,4

/1,1,4 / 3,3,3 /3,2,4 = B

For two papers at worst C3 in one of the papers and higher grades in the second paper i.e. 1,3 /

2,3 /3,3 = B

C: At worst C5 in one of the three and higher grades in the rest i.e. 1,1,5 / 1,2,5 / 2,2,5 / 2,3,5 / 3,4,5 / 4,4,5 = C

For two papers C4 in one of the papers and the rest must be a higher grade i.e. 1,4/2,4 / 3,4 / 4,4 = C

D: At worst C6 in one of the three papers and higher grades in the rest i.e. 1,2,6 / 1,1,6 / 1,3,6/2,2,6 / 3,3,6 / 4,5,6 / 5,5,6 = D

Then for two papers it must be C5 at worst and higher or better grades i.e. 1,5 / 2,5/3,5 / 4,5 / 5,5 = D

E: At worst P7 or 8 in one of the three papers and then higher grades in other papers i.e. 1,1,7 / 1,2,7 / 3,3,7 etc. = E

O: At worst 2 passes in two out of three papers
and better i.e. 1,7,7 / 2,7,7 / 6,7,7 = O

F9 in one of the papers, with the rest of the three
papers having between D1-C6

For two papers, one pass and a better score = O

Also two papers and a credit = O

F: At worst 2 F9s out of the three papers = F

F9 and P8 in two of the three papers

F9 in one of the two papers and a pass = F
