ABOUT THE AUTHOR

Bishop Dr. Paul Johnson Asamoah (now His Lordship Bishop Dr. Paul Johnson Asamoah PhD) was born on **6th January, 1972** into a Presbyterian family to a former Police Chief Inspector and his wife Mr. and Mrs. Asamoah as an only child.

He began his primary education at the Half-Assini Roman Catholic Primary School at the age of Ten (10). Due to the gross hardship the family faced at that time, one of his maternal relatives known as Kweitsu came for him to Sikape from there his uncle Kweitsu took him to

Kpala in the Volta Region of Ghana, a fishing community, where he was taken on series of fishing expeditions as a young boy with only one shirt and a pair of shorts instead of being enrolled in school. His parents willingly gave him out to his maternal uncles to a strange place or area because there was no means to fend for him right after his birth. This was so because his mother had him at a time when she wasn't yet ready to have a child, his mother was then a young girl who was staying with someone in the form of a guardian. He walked barefooted right from infancy. He got drowned in a river one day during fishing with his maternal uncles while trying to

bring out fishes that had got entangled in the fishing net which had been thrown into the river to catch fishes. He saw many people and many things under the river but couldn't describe what he saw and also couldn't tell how long he had been under the lake because he hadn't been to school before at the time of the incident. All he later saw was that he was lying on the bank of the lake with a bloated stomach (due to the quantity of water that had filled his stomach with stuffy ears), he was able to vomit much water when his stomach was continuously pressed but unfortunately water and blood were coming out of his ears as well. However, due to the gross

financial challenge he wasn't taken to the hospital and unfortunately he became deaf in both ears. He couldn't hear anyone or the sound of anything around him, his mum was quickly contacted and she came for him, how he regained his hearing loss is still a mystery to him. He was later taken to Togo for fishing by one of his maternal uncles Sammy's brother as a young fisherman (still at a tender age) to work with a different crew of fishermen in a fishing community called "Kpalime" on contract bases, he was given an amount of money as payment for being part of the crew, which he in-turn gave the money to his mother to as capital to start a business

since she was unemployed at that time. He was always taken to fishing except on 'sacred days'. The new fishing crew he worked with in Kpalime – Togo always had a good catch but in the midst of all he realized God was absent because the fishermen were involved in idol worship and did nothing profitable with the money they made from their fishing expeditions. Though he wasn't involved in their idol worship he didn't have the courage to speak against it because he had no-one. He was able to return to Ghana with the help and direction from God. While at the Half-Assini Roman Catholic Primary School he was elected as school prefect due to his level of

intelligence. He then proceeded to Half-Assini Secondary School on 6th September, 1988 on a scholarship after he had successfully passed his common entrance exams which he wrote in **1988** while still at Half-Assini Primary School. From Half-Assini Secondary School, he continued his studies at Kikam Technical Institute [Kintech] where he studied “electrical installation” as a course. He always had the first, second or third position in class. He however failed in his final year exams when he decided to turn to other sources for help instead of turning to God and lost his position in the end. He later attended churches like “Methodist”, “Presby”, etc. because he

needed a solution to certain challenges he was facing in life at that time This and other subsequent events frustrated and compelled him to kill himself in the absence of his parents because he had no-one to either talk to or share his problems with, to end it all. He heard a voice telling him to go ahead and end his life but while he was in the process of ending his life he heard another voice telling him: “don’t kill yourself, I have a lot of good things for you, I will help and guide all your life and I will also help you to pass your exams successfully”. The second voice also gave him a scripture: “Matthew 11:28” and he quickly desisted from killing himself he didn’t have a

bible then to be able to read and understand what the scripture meant and had no money to buy one. He however, chanced upon a book entitled “Bediako The Adventurer” which really inspired and motivated him when he read it and he learnt a lot from the story. He didn’t know it was the voice of God speaking to him at that time because he was neither a believer nor a born-again by then was He later proceeded to **RADISCO** (Radio Advanced Communication Technology) where he studied “electrical technology also known as “electrical engineering” for his "A" Level, he became the school's chaplain while at **RADISCO**... Unknown to him, God was preparing him for His

work while he was in school. The second voice led him to worship at “Refreshing Hour International Church” under the leadership of Rev. Dr. Stephen Baiden (resident pastor) through the effort of lady called Sis. Akos in **Aterkyem police barracks** where he then resided with his parents. Deep within him he had developed the zeal for the work of God but because he lacked nurturing that zeal was suppressed. Rev Dr. Stephen Baiden nurtured him in the things of God between **1994 - 1995**, he begun to do a lot of things which seemed to be mysteries to him and to all who witnessed them. The voice which later became known to him as **the voice of**

God directed him to register for exams again (remedials) which he did. On the day the exams begun he heard the voice again which directed him to go out for evangelism which he also obeyed. After the evangelism he boarded vehicles back to the examination center (he had to take two vehicles because the examination center was far from where he had gone for the evangelism). When he got to the examination center he heard one of examiners saying “this is Paul Johnson Asamoah, the guy who failed to show up for exams”. He quickly went on his knees to beg the examiners and immediately one of the examiners from Accra said: “for your sake I will wait till

the next day before returning to Accra” in order to help you finish your exams today. I was able to write my exams successfully that day and in the subsequent days God made me a lecturer in the exam hall instead of a candidate just like He (God) did with Moses and others in the bible and aided them to write books in the bible. I studied electrical engineering and on the day of our oral exams, the voice (God) asked him to speak in tongues and he did just that, suddenly someone appeared physically standing before him and he answered the questions Bishop Dr. Paul (then Paul) had been asked as an interpretation to the tongues he (Paul)

was speaking, I wrote the remaining papers and passed successfully just as God had promised. “Even though he was born into a Presbyterian family, he wasn’t a staunch member, he only attended church once in a while and on festive occasions. He later worshipped with the Roman Catholic Church when he was enrolled into the Half-Assini Roman Catholic Primary School at age ten (**10**) because it was compulsory for all students of the school to join the Roman Catholic Church. He attended church like any ordinary “church goer” because he had no-one to nurture him in the things of God at that time. Bishop Paul (then Paul) realized that anytime he

was praying evil spirits that were tormenting people manifested and the people were delivered. He also realized that anytime he joined others to pray something happens. For instance, in Pentecost (one of the churches he was attending then) demons were making even pastors fall under their power but they couldn't make him fall. It was God himself that made him accept Him as his Lord and personal saviour because is the type that hardly believed in anything so he was never convinced to even come out during **altar call** to accept Christ in all the churches he attended then. He started a fellowship at Boaponsem Park in Dunkwa-on-Offin when his parents

relocated to Dunkwa-on-Offin on transfer due to the nature of his father's work as a policeman. He begun the fellowship by praying alone at the Boaponsem park because God had not asked him to start a fellowship then until one day he saw a crowd of people gathered around him while praying with his eyes closed, according to those who joined him to pray at the Boaponsem Park, they were directed by God to join Bishop Dr. Paul (then Paul) at that specific location to fellowship with him, this was how he begun a fellowship in **1995** under the name “**Dr. Jesus Fellowship**” a name given to him by God without taking any offering whatsoever

from anyone. The fellowship was conducted after church everyday except Sundays regardless of the weather condition. Both Christians and Muslims as well as people who belonged to other religious groups joined him at the fellowship to worship. Most of the people who joined him were servants of God and majority of those who weren't are into ministry today. People who came to him or to the fellowship for prayers and prophetic directions always received the solutions they desired. During prayers at the fellowship grounds, he saw fire descending from Heaven, whenever it was raining and he declared that the rains should stop because they were

having a prayer meeting it stopped, he often did that because he was then having the fellowship on a park without any form of shade or shed then. These and more was what made him have a firm believe in God because he realized that whatever he asked God to do He did it. He also discovered that in all our services as denominations of churches we must involve or have a non-denominational fellowship or prayer meeting as well this was because he noticed that non-denominational fellowships seemed to be more powerful than the church itself. Bishop Dr. Paul fasted for a period of **21**days during the period he was handling the fellowship in order for God

to open doors for him to have access to a bible school without having any bible school in mind. While praying one day, God asked him to take a piece of paper and pen to write something, after he had written it as directed by the spirit of God it read: “Victory Bible Training Institute”. He didn’t know the location of the said Bible School, all that God told him was that it was located in Accra. On the day he decided to set off to Victory Bible Training Institute, he met a great woman of God who had a ministry known as “Destiny Chapel” in Mankessim where she resided by then. Through a conversation we had she told me of a bible school she owned and tried

to convince me to enroll there but I politely declined the offer and told her that God had already given me a specific location which she understood. He enquired from a lady also in the vehicle whom he got to know as Edna about the direction to Victory Bible Training Institute and she replied by saying that she was also going to the same place for admission into the bible school. Today, that lady Edna is handling a ministry together with her husband. He proceeded to “The Victory Bible Training Institute” under the leadership of Bishop Tackie Yarboi after God’s direction. He handed over the fellowship he had established to one of the leaders he had appointed when

he gained admission into the Bible school and they also did a great service to the glory of God. Later his spiritual father Rev. Dr. Stephen Baiden contacted him and said that pastors in the whole of Dunkwa-on-Offin were complaining that they were losing their members to his fellowship (Dr. Jesus Fellowship). This was because their church members decided not to attend church but rather attend the fellowship which was conducted everyday. So, he (Bishop Paul) decided not to establish any church in Dunkwa-on-Offin but rather dissolved the fellowship. The leaders he appointed had won many souls for their various churches through the fellowship. One

day while in Victory Bible Training Institute, he was called by the leaders who asked him to establish a church for them because his name and how God was using him then had spread across the length and breadth of that place too. He established a fellowship again while in Victory Bible School between **1996-1998** decided to end it because he didn't have a place of his own neither did he have a place for the fellowship as well. This is what made him realize that ministry was not about multitude rather it was about God and also when God calls/appoints you he gives you specific assignments to do. Bishop Paul establishes churches as led by the spirit of God and not because

others were doing it. He does things as led by the spirit of God just like Abraham and others in the bible did. His focus in ministry is to do the work of God for the glory of God and not for money. His mates in Bible suggested a name for his future ministry, they suggested **Powerlife International Ministry** but at the time he was ready to finally establish and register his ministry after he had successfully completed his course in Bible school he found out that the name had already been used (registered already by someone). He then called on God for another name but God asked him to add prophetic to it thus making it **Powerlife Prophetic**

International Ministry. Bishop Tackie Yarboi posted him to one of his church branches in Osu as a form of service before he finally commissioned him to go ahead and establish his own ministry. He was finally ordained by a white missionary from the United States of America in **2002** under the Full Gospel Fellowship of Churches and Ministries International of Oregon, Inc.

own location that God wants to put it and until you know you may have challenges. Most of the leaders of Powerlife Prophetic International Ministries are people who came to join to help because the church was then yet to settle. His ministry Powerlife Prophetic International Ministries has been through lots of challenges and difficulties and this made a lot of people leave the church. By the grace of God Bishop Dr. Paul Johnson Asamoah's ministry has survived all the storms and challenges that came its way, today, the ministry has developed to the glory of God and does not lack. God. The church has now got new set of leaders that can be boldly declared to the world.

Information of this sort about the humble beginning of a dynamic servant of God is not meant for boasting or anything of that sort rather the reason behind is to let all and sundry who fortunately chance upon it to know that regardless of the challenges anyone is facing God has a way of turning that

situation around no matter how hopeless the situation may seem. Bishop Dr. Paul Johnson Asamoah believes it is always good to serve people especially people with vision. I tasted all that is sweet, but I found nothing sweeter than good health.

And I tasted all that was bitter, but nothing was more bitter than being in need of good people. And I carried

both, iron and rocks, but nothing was heavier than debt. I discovered therefore that life comprises only of two days: A day for you and a day against you. So when it is for you, do not be reckless; and when it is against you, be patient. Because both days will expire!! If you can't be a bridge to connect people, then don't be a wall to separate them. If you can't be a light to brighten people's good deeds then don't be darkness covering their efforts. If you can't be water to

help people's crops sprout, then don't be a pest destroying their crops. If you can't be a vaccine to give life, don't be a virus to terminate it. If you can't be a pencil to write anyone's happiness, then try to be a nice eraser to remove their sadness.

We can only be each other's keeper.
